SUMMARY

Returning computer science student. Currently pursuing higher education with renewed motivation and enthusiasm, and is seeking more opportunities to expand and improve upon learned skills that would benefit both self and any specific field of interest within the computer science-related realm. Hopes to work with AI by exploring both conventional and non-conventional methods of more ethical and sustainable integration into the modern workflow, while still expanding on its current uses in the current era.

EDUCATION

Chaminade University of Honolulu, Honolulu | 2026 – Present

- Relevant Coursework: SQL (Database Systems), R, Python

University of Personal Disappointment and Wasted Time| 2012 – 2016
